

Road Pro 36

Fits 26,000 – 33,000 lb. GVW Vehicles

The Meyer Road Pro 36 brings you strength you need to quickly and efficiently clear city streets and small rural neighborhoods.

Features

Road Pro 36 moldboards are constructed using 7-gauge steel or 3/8" polyethylene and backed by eight vertical ribs built on a massive black iron push frame.

Six heavy-duty, field adjustable springs absorb road punishment to reduce wear and tear on both vehicle and driver, storm after storm.

Aggressive 65° attack angle and 36" moldboard height with 15" radial overhang to throw snow higher and farther.

Unique design that allows the moldboard to automatically pivot up to 5° on each side to follow the contour of the road for faster, more efficient plowing action.

Available in 9', 10' or 11' full-trip lengths with available bottom trip.

All Meyer bottom-trip moldboards are available with a reversible cutting edge for longer wear-life of your moldboard.

Specifications

	RP 36 9'	RP 36 10'	RPDE 36 10'	RP 36 11'
